II. SAFETY INSTRUCTION

- Please pay close attention and make sure children, pets, and other spectators are at a safe distance when swinging a golf club inside the enclosure.
- Additionally, take every precaution to protect ceilings, walls, windows, vehicles, and neighboring homes.
- Be alert of where you stand and walk, especially when others are swinging golf clubs or hitting balls into the screen. - Make sure the setup is far from gas lines, electric heaters, fireplaces, candles, or any other source of heat or fire hazard.
- When not in use, store neatly in a cool, dry location, and protected from weather elements and direct sunlight.
- The GOLFJOY is not responsible for any damage to property and/or any personal injury.
- Be mindful of disconnected and falling pipe if not snapped/ tightened properly.
- Do not hang from the enclosure.

Detail Instruction of Easy Installation,
Please scan the QR Code

IV. INSTALLATION GUIDE

1

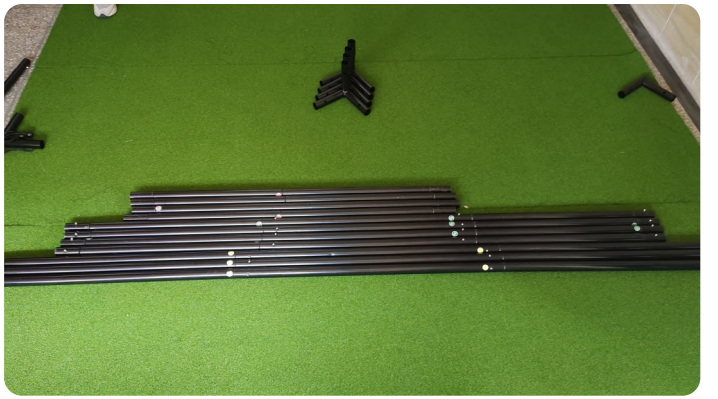
To lay the turfs, lay three sheets of 3m*1m grass in horizontal rows on the ground;

2

Arrange the poles according to length, the longest being W, followed by H, and the shortest being D. According to the labeling, W has 6 W1s and 3 W2s, H has 8 H1s and 4 H2s, and D has 4 D1s and 4 D2s;

3

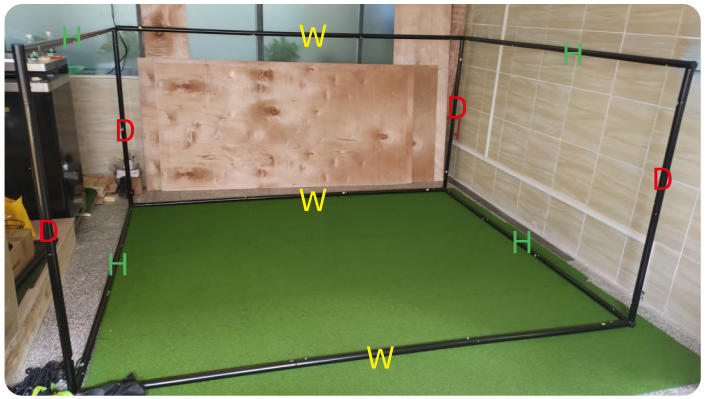
Combine the poles, according to the numbers, W1+W2+W1, H1+H2+H1, D1+D2 individually as follows, 3 W, 4 H, 4 D;

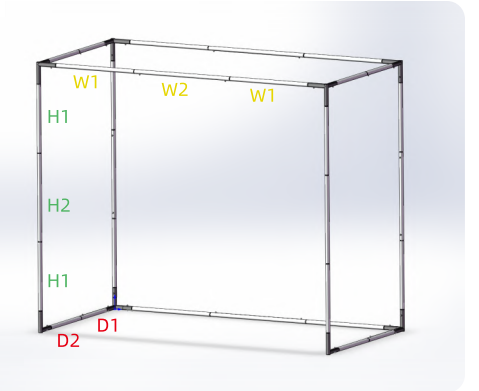


IV. INSTALLATION GUIDE

4

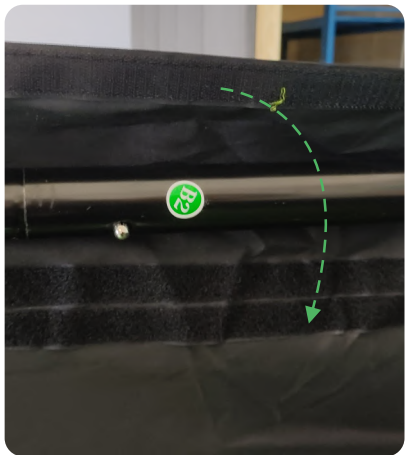
Combine tees and tubes, arrange tees and tubes according to the diagram below;





5

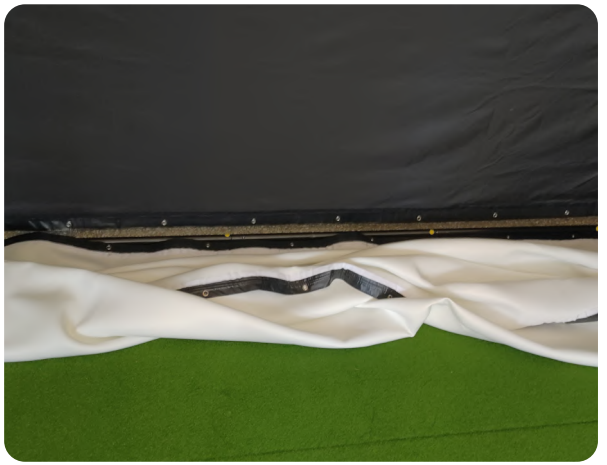
Hang the perimeter cloth, Velcro side on top, from the outside to the inside, wrap the tube, note that there are two Velcro, with the outer one;

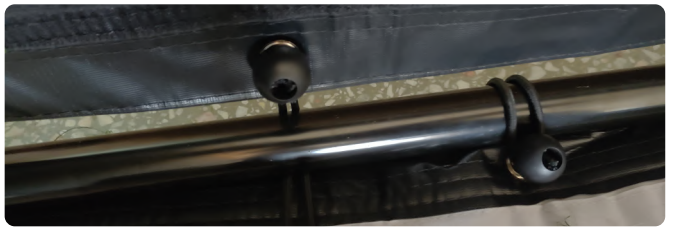


IV. INSTALLATION GUIDE

6

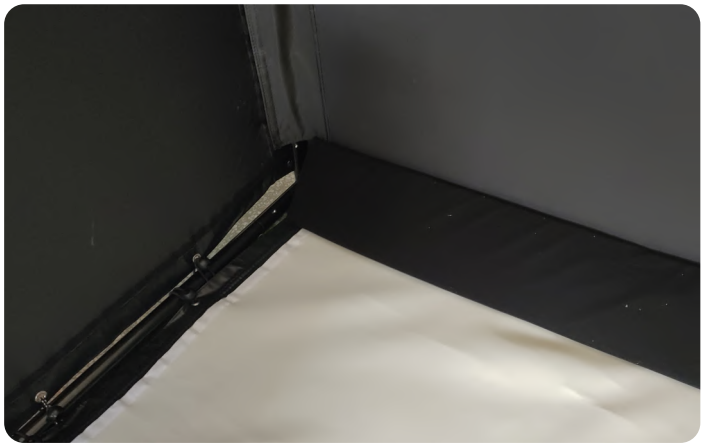
To hang the impact screen, the impact screen is placed on the turf and secured to the tube with elastic cord after passing through the holes;





7

Paste the padding, paste the corresponding length of padding strips around the impact scren, paste it on the Velcro, and fold the corners in staggered positions;



IV. INSTALLATION GUIDE

Completion

V. LAUNCH MONITOR USER MANUAL

Please check GDS Pro User Manual

Please check GDS Plus User Manual

VI. GOLF IMPACT SCREEN CARE & USE

If you feel that your screen is stretched too tight or too loose, adjust the size of your frame by moving the tubes of the frame in or out of the fittings.

Keep enough space between the screen and any walls behind it to avoid contacting them. This distance will depend on the force of your swing, but in most cases 6-12" is sufficient.

We recommend using new golf balls that are free from any scuffs or permanent marker to maximize the life of your screen.

Remember that impact screens are "wearable" products, and depending on the individual use, they may start showing wear immediately after first use. This is normal. All of our impact screens, however, should withstand several thousands of strikes from even the best golfers.

Safety Tips

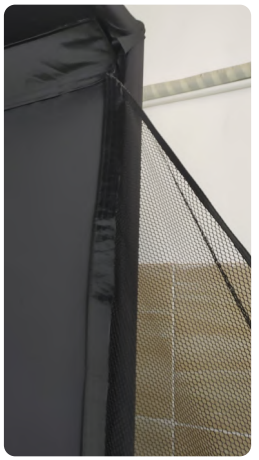
Please make sure to take proper safety precautions and keep children, pets and spectators out of swing range. Additionally, take every precaution to protect ceilings, walls, windows, cars and neighboring homes. GolfJoy is not responsible for damage to property &/or personal injury.

IV. INSTALLATION GUIDE

8 Hold it straight and cover both sides of the pipe with grass edging;

9 Hang the impact screen protector to enclose the impact screen from the back and fasten it to the top and sides respectively with Velcro;

10 Hanging edge netting, secured to the velcro from the inside measurement from bottom to top;



11 Hanging edge netting, secured to the velcro from the inside measurement from bottom to top;

Dear customer,

If you encounter any issues during installation or setup, please don't hesitate to contact us. We are more than happy to assist you. You can reach us at our address, email, or through our social media accounts. Feel free to send us a message via social media as well.

Thank you once again for choosing GOLFJOY. We hope you have an enjoyable golfing experience!
